

Chris Clark

AI + ERP Transformation Program Manager

SAP S/4HANA & ORACLE FUSION · MANUFACTURING & CPG · CONTRACT · 100% REMOTE

chris.clark@clarkfamilyusa.com · 202 213 3510 · Washington, DC · [linkedin.com/in/chrisclarkin](https://www.linkedin.com/in/chrisclarkin) · aierppm.clarkfamilyusa.com

AI and ERP transformation program leader with 15+ years modernizing technology at \$1B+ manufacturers, including two vertically integrated dairy and CPG producers. I run programs on earned value discipline with executive governance, and I build the AI that powers them, deploying agents that automate ERP, supply chain and finance operations.

SIGNATURE OUTCOMES

- Five Oracle Fusion go-lives in five years, every one delivered on time and within budget.
- SAP S/4HANA selection and enterprise rollout across finance, supply chain, manufacturing, production planning and distribution for multi-site dairy operations.
- >97% budget accuracy and >90% milestone compliance using earned value management.
- 40% reduction in cross-system mismatches through AI-governed inventory reconciliation.
- +10% line utilization, 15% lower overtime and 10% lower expedite cost from an AI operations control tower.
- Governed \$25M+ technology portfolios and multi-vendor SI teams of 25 to 60 across the Americas, EMEA and LATAM.

CORE STRENGTHS

Program Earned value management, cutover and hypercare, hybrid Agile and Waterfall, executive steering committees, multi-vendor and SI governance, RFP and vendor selection, M&A and post-merger integration.

Leadership CIO, Chief AI Officer and Transformation Program leadership. Technology strategy and target operating model, cybersecurity and compliance governance, board advisory, portfolio governance.

EXPERIENCE

ERP Transformation Partner / Executive Advisor

2021 — Present

Byrne Dairy (\$1B Dairy & CPG Manufacturer) · Syracuse, NY · reports to CFO

- Designed and delivered the future-state Target Operating Model across finance, procurement, manufacturing and supply chain.
- Led five Oracle Fusion go-lives in five years (data migration, finance, purchasing, HCM, warehouse management) on time and within budget.
- Integrated Oracle Fusion with WMS, MES and SCADA systems via Oracle Integration Cloud, decommissioning 11 legacy applications.
- Created and deployed AI agents for inventory reconciliation in Oracle AI Agent Studio.
- Ran the SI RFP, scoring and selection, and chaired the executive steering committee.
- Applied earned value management to achieve >97% budget accuracy and >90% milestone compliance, governing multi-vendor teams exceeding 100 resources.

Chief Information Officer (CIO)

2017 — 2021

MDVAMILK (\$1B Vertically Integrated Dairy Manufacturer) · Reston, VA · reports to CFO

- Led selection and enterprise implementation of SAP S/4HANA Cloud across finance, supply chain, manufacturing, production planning and distribution for multi-site dairy operations.
- Defined and executed a multi-year digital transformation roadmap aligned to growth and leadership transition.
- Established cybersecurity and compliance governance while protecting operational agility and user experience.
- Chaired executive steering committees overseeing risk, budget and strategic priorities.

Vice President, Technology

2015 — 2016

SCORE · Herndon, VA

- Advised executive leadership on technology strategy and built multi-year roadmaps and governance.
- Oversaw implementation of an enterprise CRM supporting thousands of users nationwide.

SVP, Information Management

2013 — 2015

NeighborWorks America · Washington, DC

- Led enterprise platform modernization supporting over 100,000 end users.
- Governed a large technology portfolio and implemented delivery frameworks improving transparency and outcomes.

Technology & Product Leader

From 2008

Minestream Software · Network security devices and SaaS · global engineering · successful exit

- Led technology strategy and global development for reverse-firewall network devices that stopped information leaks at the network door, paired with a SaaS dashboard.
- Architected the embedded product strategy and built four consumer network-security appliances in 24 months.
- Named on an international technology patent featuring 65 claims, creating strategic advantage and an exit path.
- Managed an international engineering team and device-manufacturer partnerships across the U.S., Israel and Taiwan.
